

GSA APPROVED: #GS-02F-0089S

Advantage!

RIAB™ Target System

Microwave Motion Sensor Flasher
Paintball Shootback Device

Fully Enclosed 14' Trailer for
Transport/Storage/Charging

Strategic Systems RIAB™ [Range In A Box] is a wireless, rapid deployment target system. The RIAB™ allows Training Units to easily create Scenarios based on Unit/Mission Specific parameters.

Universal Mounting Bracket

Ballistic Shield for Live -Fire

Double T-Bar

A Versatile System:

- Urban Assault Courses
- IED Training lanes
- STX Training
- Shoothouses
- Qualification/Known Distance Ranges
- TOOL-LESS Rapid Deployment/Reconfiguration
- Compatible with existing Simulator systems (LEFT)

WiFi Technology allows for Multi-use and Rapid Deployment.

- Open Scenario programming and endless scenario opportunities (limited to your imagination)

- TOOL-LESS setup Rapid Deployment/Reconfiguration
- Revise & Recock Scenarios quickly

- No embeded infrastructure means Less Engineering/ Construction Cost & faster Range Stand-up.

- Secure encryption ensures safety from network intrusion.

Lightweight TLD™ [Target Lifting Device] weighs only 38 lbs. and can be used with a variety of silhouettes (up to 20 lbs.)

TLD™ is powered by rechargeable 12VDC battery which will provide up to 8 hours of use before recharge. External battery or charging source (i.e. Solar) can greatly extend use time.

RIAB™ Trailer serves as Storage, Charging, and Transport for the System. Trailer can be configured for Ball or Pintle towing package. Optional Gas generator (left) may be used to charge system when AC is not available due to training in remote areas.

RIAB™ SYSTEM ADVANTAGES:

- **GSA Advantage!**

- Complete Target Control System

- Wireless Target System

- Hit Sensing/ Scoring Capabilities

- Commercial Off The Shelf products

- NO FCC License required

- Turn Key Operation

- After Action Reporting (AAR)

- Versatility

Convoy Ops Training
Urban Ops Training
Shoothouses
Small arms/MP Ranges

- Accessories

Shootback Device
Muzzle Flash Simulator
Programmable Motion Sensor
Programmable Sound
Ballistic shields
Multi-Mounting Brackets
Photo Realistic Silhouettes
MILES Interface
External Battery Connectors
