

Self-Resetting Target SRT-1000

*Excellent Choice for
your home or small
gun range!*

20,000 Lifts before re-charging!

Main Features of the SRT-1000 for your home or small shooting range:

Quick-Change Head Plate (Squirrel, Rabbit, Bulls Eye, 3/8", 1/4")

Over 20,000 lifts on a single battery charge.

Quick bolt-on receiver for 4x4 post for elevated shooting.

Simple re-chargeable 12VDC battery. Circuit protected by auto-resetting fuse.

Easily replaceable front shield.

3-point mount for ground staking.

Rugged, all-steel construction. Made in America.

Self-Resetting Target SRT-1000

- Challenge friends or yourself in speed and accuracy drills.
- Run out of bullets WAY BEFORE the target gets tired!
- Teach your kids to shoot without constantly having to walk downrange.
- Get real-time feedback from the target, as only direct hits will drop the headplate.
- Works every time, and great for shooting competitions.
- All easily replaceable parts, headplate, front shield, and battery.
- Easy to operate and inexpensive to maintain.

20,000 lifts between charges!
